

# Airbnb Mobile Apps

Welcome to the Airbnb Mobile App User Manual. This guide will also show you how to use the Airbnb mobile app whether you are a traveler, a guest, or a host.

# Welcome To Our Application

This is the page where people either sign in if they are already members or sign up if they are not. For the new comer, here you require the 'signup' button which is usually attached to the email address. Those are the user that may have previously registered their details with the use of our app; they will simply sign in.

## About Our Application

Our application will allow the let the traveller to book an accommodation before they go for their travel with cheap price and easy way.

# Application Booking page

01

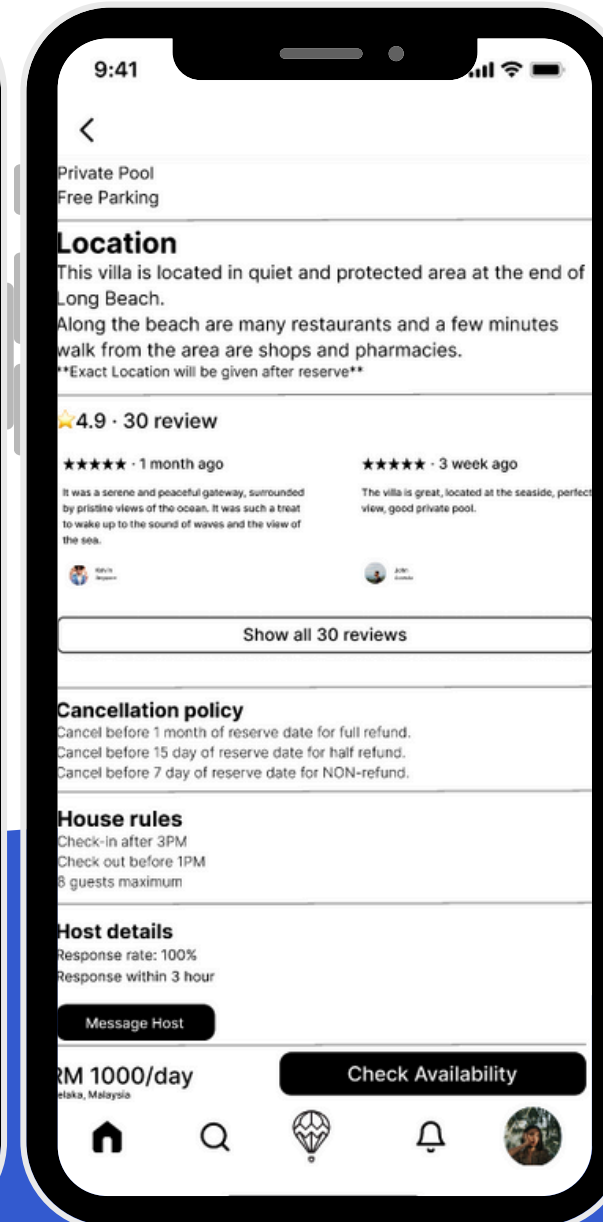

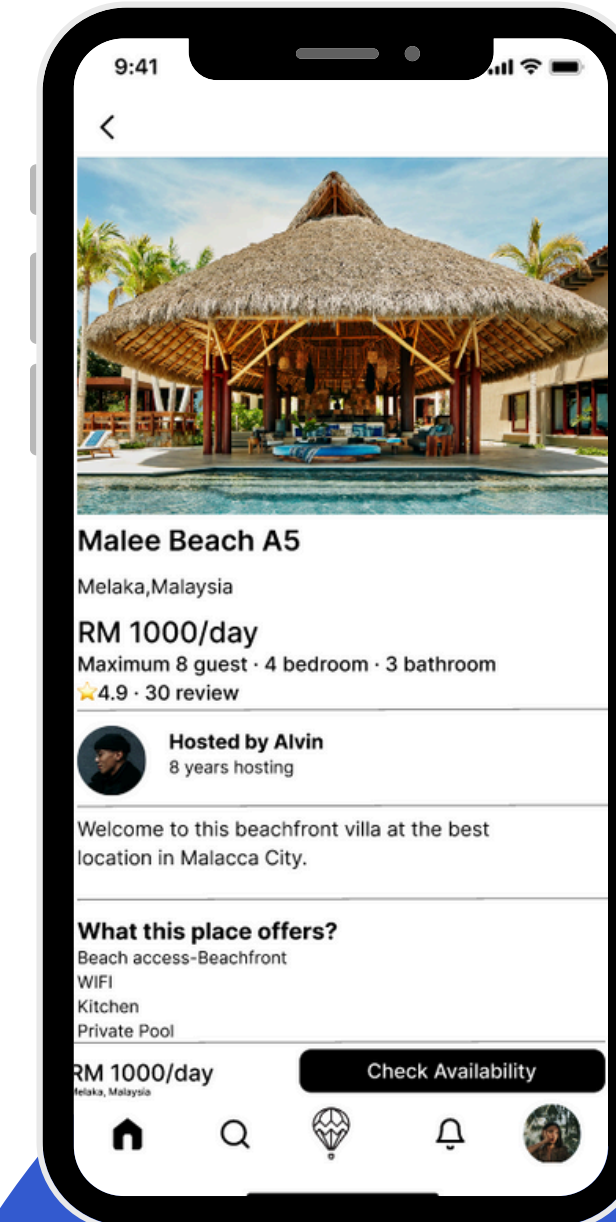

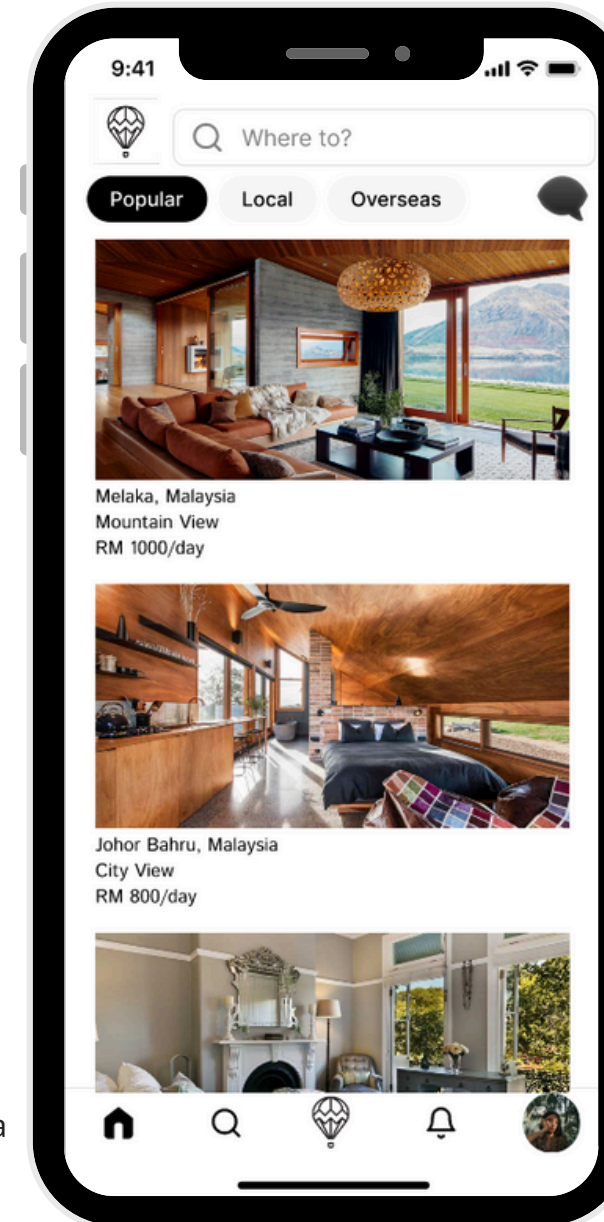

For the first image, it will reveal the accommodation which are available for a traveler to make the bookings.

02

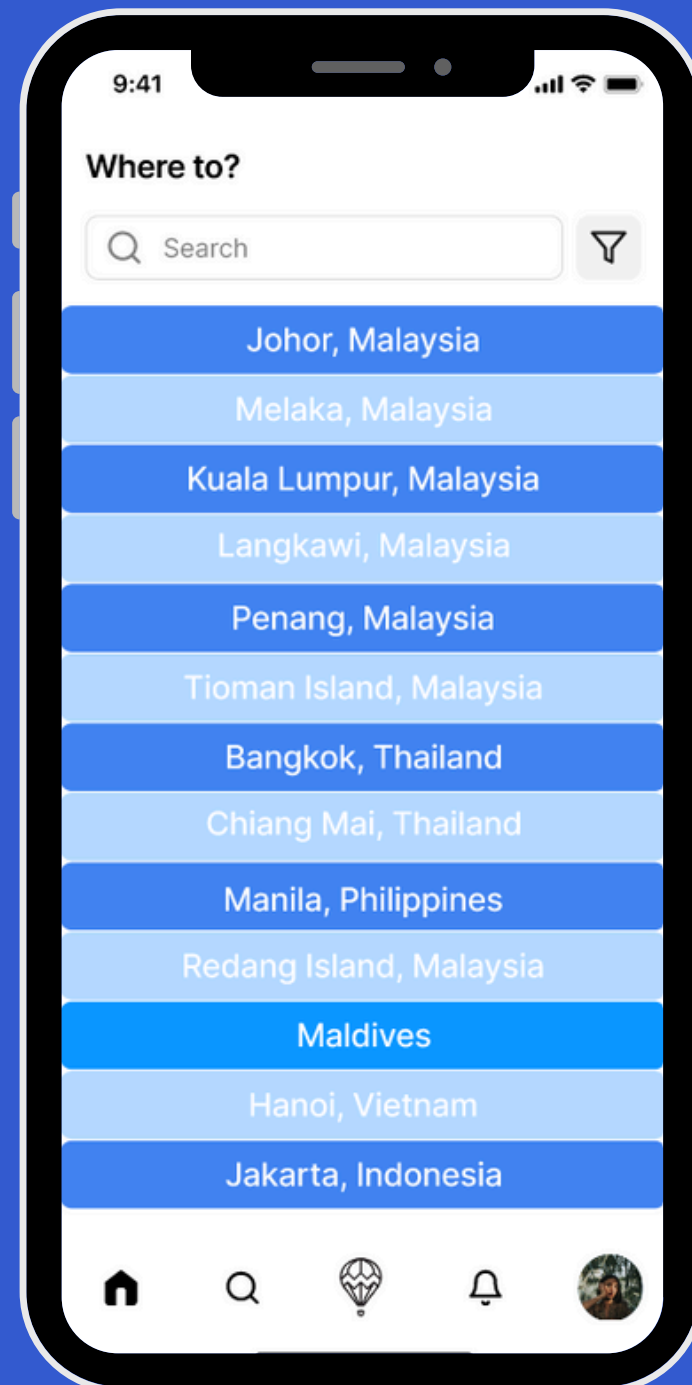

For the second image, it will show about the price per day, maximum guest and the housing construction. In addition to this, the owner of the house will be shown, and a small welcome message. For different places, the place offers will be different.

03

It will be given for the purpose of giving location for the accommodation to the customers. We also provide a review for the customer who had booking the accommodation before we make another booking from them. We do have a cancellation policy and order that every cancellation done before 1 month will warrant a full refund. It must be understood that customers find themselves under the obligation to adhere to the house rules.

# Application Search Function

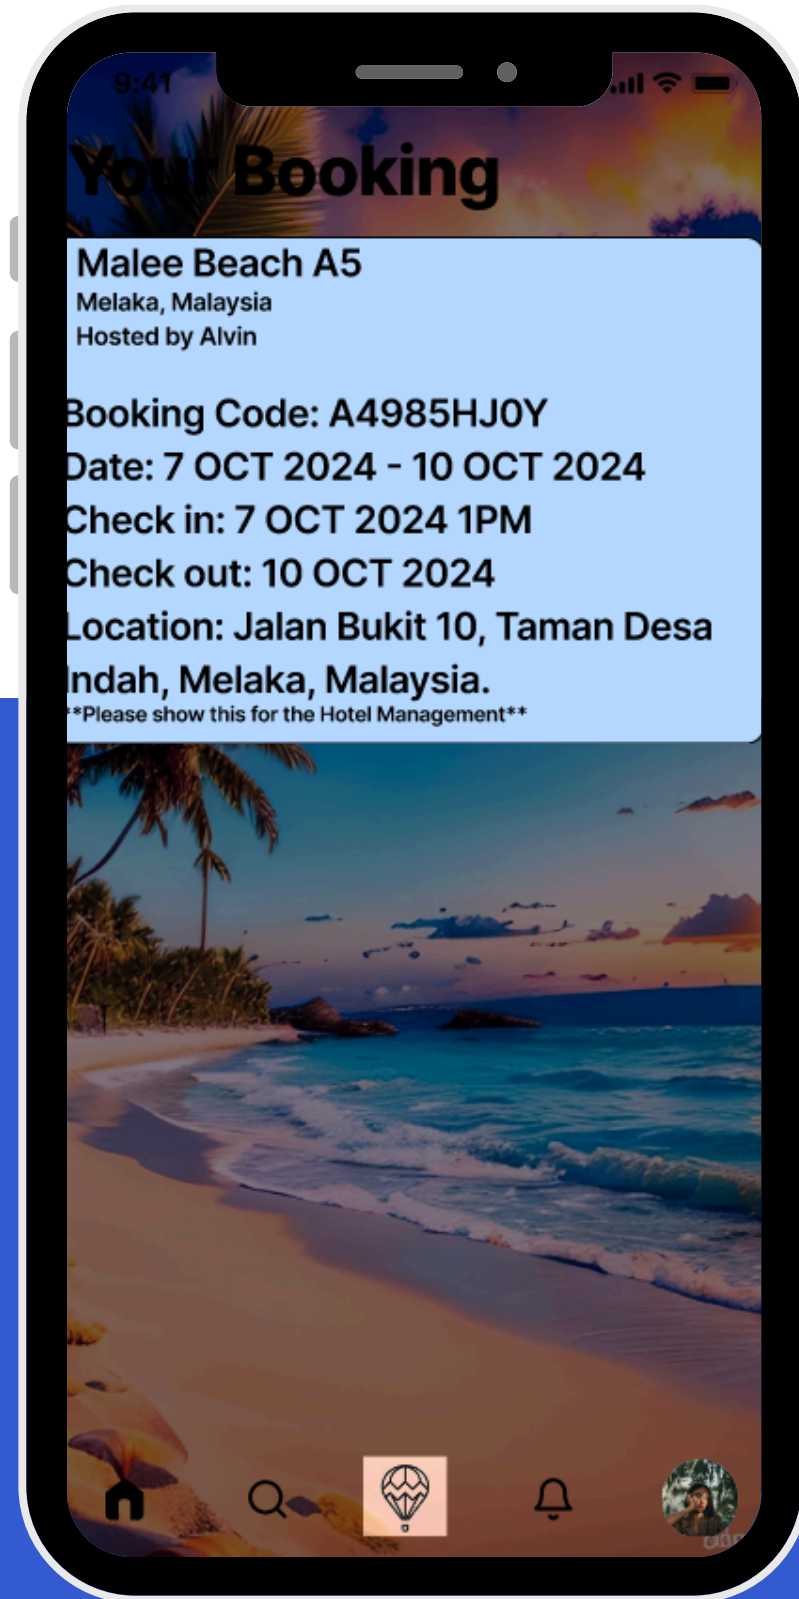

01

It empowers the customers to separately search for any destination they are interested in and therefore find an ideal hotel. To perform this search, type the name of the city or neighborhood, as well as or a particular address, in the given Search Bar, and the program will display other relevant properties for your evaluation.

There are additional options and settings that help to fine tune the search results: price range, number of bedrooms, services and amenities, type of accommodation, and guest reviews which will let you find the most suitable place for your stay. Each listing contains bandwidth images, descriptions, fees, and even reviews from other customers that the different spaces have hosted in the past.

This invention is a simple and convenient way for you to search the site, and to book the lodging appropriate for your vacation.

# Booking Page

The page given below gives detailed description of the accommodation agreements that we have taken. Here you will get information on your particular reservation number, with regard to the general details of the property to its booking dates, details of the services and amenities included in the package and any extra services or requests that you may have requested for. This contains the details of the booking and includes the ability to view the location map, information and guidelines that may have been shared by the host. Also, there is an opportunity to change details of your booking, add more services that you would like to add to your booking additional information or contact with the helping service if you have some questions or need helps in choosing the services to stay.

# Notification Display

This page is informed to show out all the notifications you have received relating to your Airbnb activities. Here you will get all the information and messages related to your bookings, enquires and your entire activity on the site. Such notifications can include information about your existing and future bookings, messages from the hosts/c Guests, changes in the reservation and other options, and the time when guests are expected to check-in/out. Also, occasionally, you may receive messages regarding new reviews of your profile, special offers or some changes in the Airbnb's policies and rules concerning safety during a quarantine, for example. All notifications are meant to assist you to stay informed and therefore make your experience on Airbnb as pleasant as possible. You can choose specific type of notifications you want to be displayed or hide all, uncheck those that have been read and delete them if necessary. Depending on the notification, there will often be a hyperlink to the specific subcategory which will in turn have links to the account sections where that notification pertains along with any support information.

# User Profile

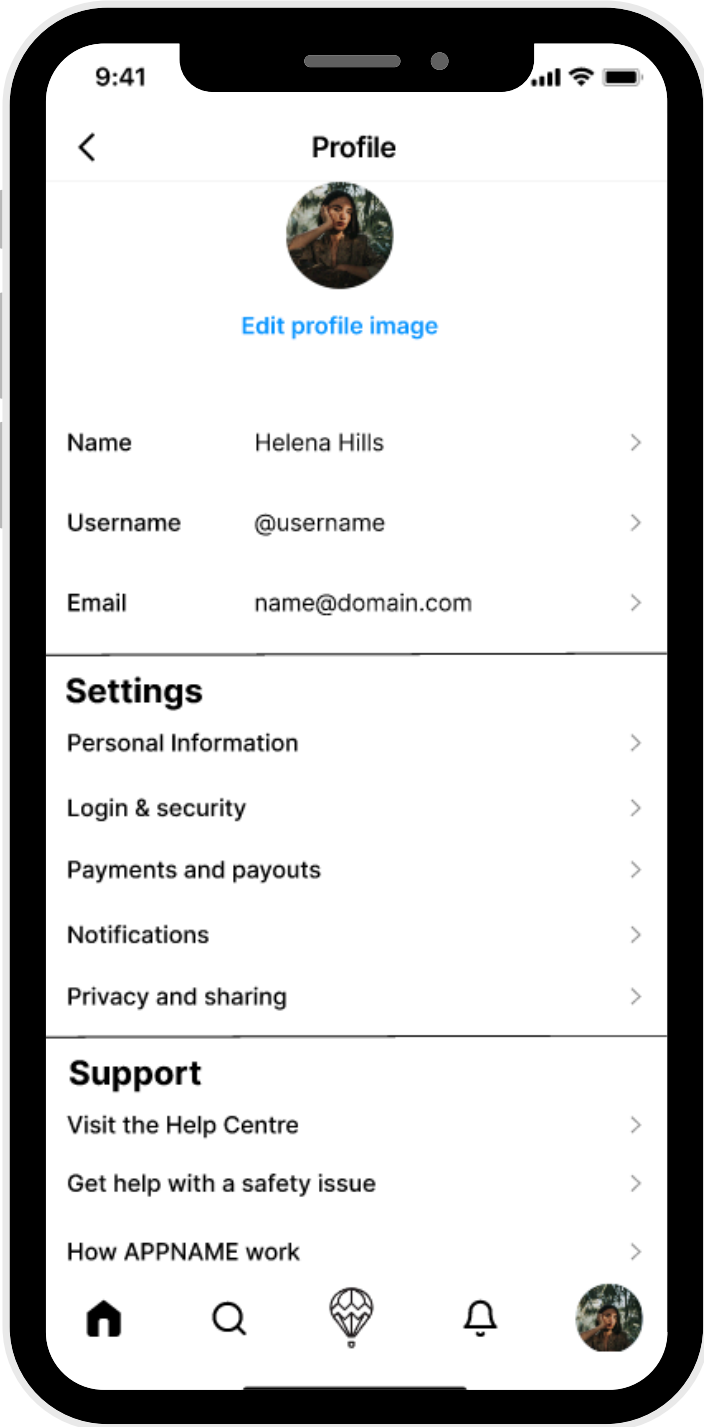

## Service 02

This page will be used as a page where the user can view all the profile details that they enter on our site. It contains a clear summary of accounts where one will find the individual's name and profile picture, contact details and any other additional information one has included in the account. They allow for privacy settings, such as updating the bio, the networking sites connected to the profile, and managing other personal choices to reflect the holder.

This is a basic profile that includes your name, email, address, and phone number; activity stream that shows your past and future booking, reviews that you have written, as well as given and badges that you have earned. This page also allows you to have options for changing your password, option for alerts and also the option to set your personal details/privacy.

This part is designed to empower an individual with full access to the account details, permitting modifications whenever necessary to ensure optimum representation of the user's identity or preferences.

# Thank You
